6. Malpractice Regulations:

- Any student or team of students found involved in mal practices in any examination component will be awarded negative marks equal to the weightage of that component and previous all evaluative components will be made zero. The student(s) will be blacklisted.
 - Any student or team of students found repeatedly – more than once across all courses – involved in mal-practices will be reported to the Disciplinary Committee for further action. This will be in addition to the sanction mentioned above.
 - A mal-practice - in this context - will include but not be limited to:
 - Submitting some other student's / team's solution(s) as one's own;
 - Copying some other student's / team's data or code or other forms of a solution;
 - Seeing some other student's / team's data or code or other forms of a solution;
 - Permitting some other student / team to see or to copy or to submit one's own solution;
 - OR other equivalent forms of plagiarism wherein the student or team does not work out the solution and/or uses some other solution or part thereof (such as downloading it from the web).
 - The degree of mal-practice (the size of the solution involved or the number of students involved) will not be considered as mitigating evidence. Failure on the part of instructor(s) to detect mal-practice at or before the time of evaluation may not prevent sanctions later on.
 - The decision of punishment at course-level will be taken by Instructor-InCharge.
5. **Chamber Consultation Hour:** Thursday 11 to 12 p.m. and with prior appointments through email.
6. **Notice:** Notice concerning this course will be displayed on photon notice board.

- In case of an unanticipated illness preventing a student from appearing for a test, the student must present a Medical Certificate from BITS medical centre.
- Requests for make-up for the comprehensive examination – under any circumstances – can only be made to In-charge, Instruction Division.
